

# 'Marvel'

## MAHONIA

*Mahonia x media* 'Marvel' PP27425

Statuesque and upright, Marvel's large frond-like leaves develop in whorls along coarsely branched stems. Gorgeous sprays of fragrant, yellow flowers appear in late fall or early winter. Flowers develop into grape-like clusters of wax-coated black berries by late summer and autumn.

EXPOSURE	USDA ZONES	SUNSET ZONES	DIMENSIONS
Part shade to full shade	Hardy to -5°F, zones 6b-9	4-9, 14-24	6 ft Height x 4 ft Width

### Bloom

Bright yellow flowers in fall to winter, followed by blue berries

### Benefits

Attracts Pollinators, Salt Tolerance, Year-Round Interest

### Growth Rate

Moderate

### Water

Medium

### Soil

Tolerates a wide range

### Fertilizer

Yearly in early spring

### Pruning

Can prune to shape spring-summer
